Annual total natural gas utility cost: ~\$22,000

- Customer charge and delivery charges make up ~\$7,000 of the \$22,000
- Remaining \$13,000 is from the gas commodity and upstream transport costs
 - o Note: gas commodity price changes quarterly; customer charge and delivery charges only change via a rate case.
- Assumes 2,000 thousand cubic feet (MCF) annual usage or 2,000,000 cubic feet (CF)

551A Horton Court, Lexington KY 40511 (gas available)

2121 Capstone Drive, Lexington, KY 40511 (gas available)

919 Citation Boulevard, Lexington, KY 40511 (extension required)

2850 Georgetown Road, Lexington, KY 40511 (extension required)
