Subject: RE: SOS -- FW: New Project Information Request - Lexington

All-in Rate: \$14.96
\$6.99/MCF is a good number for the commodity charge.

Delta Natural Gas Company offers two large volume customer classifications: Large Non-Residential "Firm" or Interruptible Service (Please see Delta rates at www.deltagas.com). Under certain circumstances and only with the approval of the Kentucky Public Service Commission, Delta may for large volume natural gas users seek a "Special Contract" classification allowing an interruptible rate with "Firm" service.

The usages are such.

100,000 Mcf/month
3,333 Mcf/Day
138.88 Mcf/Hour

This is a good size natural gas user. I am not sure either site has the capacity to currently serve this client. It would entail system upgrades. The cost of those upgrades would be the responsibility of the end user and something Delta would need to discuss with the client. I will need to get our engineering department to model both locations to determine the pipe size requirements.

Thanks,

Jeff Steele
