FIRST DESTINATION AND CAREER OUTCOMES FOR THE UNIVERSITY OF KENTUCKY

Academic Year	Major College	Major
(All)	Engineering	(All)

Based on the filters set above, the total number of graduates/repondents selected is:

Count of Graduates	Count of Respondents	Response Rate
1,635	1,385	84.7%

Updated semi-annually, the UK First Destination Dashboard provides a window to the initial career destinations of recent University of Kentucky bachelor's degree graduates. Data is collected through an online survey administered by the Office for Institutional Research, Analytics, and Decision Support before graduation each August, May, and December. UK conducts follow-up research with recent graduates and secondary data sources for a period of six months following graduation to obtain the most accurate information about post-graduation plans. The information reflected is self-report data from recent graduates that has been analyzed and consolidated. Survey response rates vary across academic year, college, and academic major.
